

COVER FOR MINICRANE FOR BRICKLAYING UNDER THE CEILING

The cover is made of POLYMAR 8556 with a weight of 900g/m².
You can choose the color of the cover.

The cover is attached to the minicrane by means of 5 elastic tensioners: 4 attached to the support feet and one to the wheel.

To make it easier to put on the cover, it is equipped with a zip fastener on the side of the machine arm.

It is possible to order a cover with an imprint.
