

MINICRANE FOR BRICKLAYING UNDER THE CEILING MC03

It is an innovative device for mechanical bricklaying

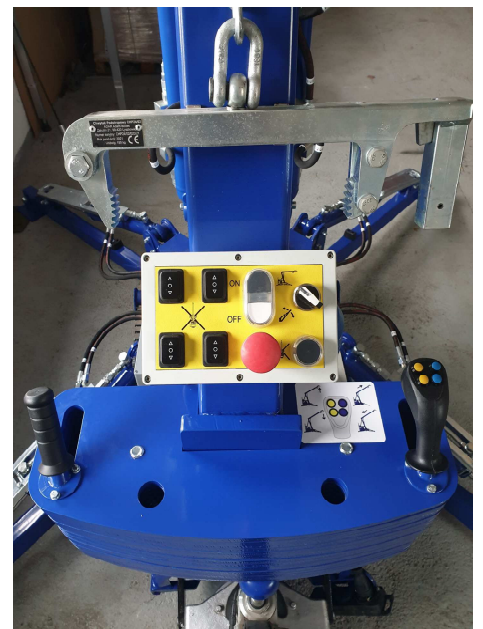

Its compact dimensions perfectly match any construction

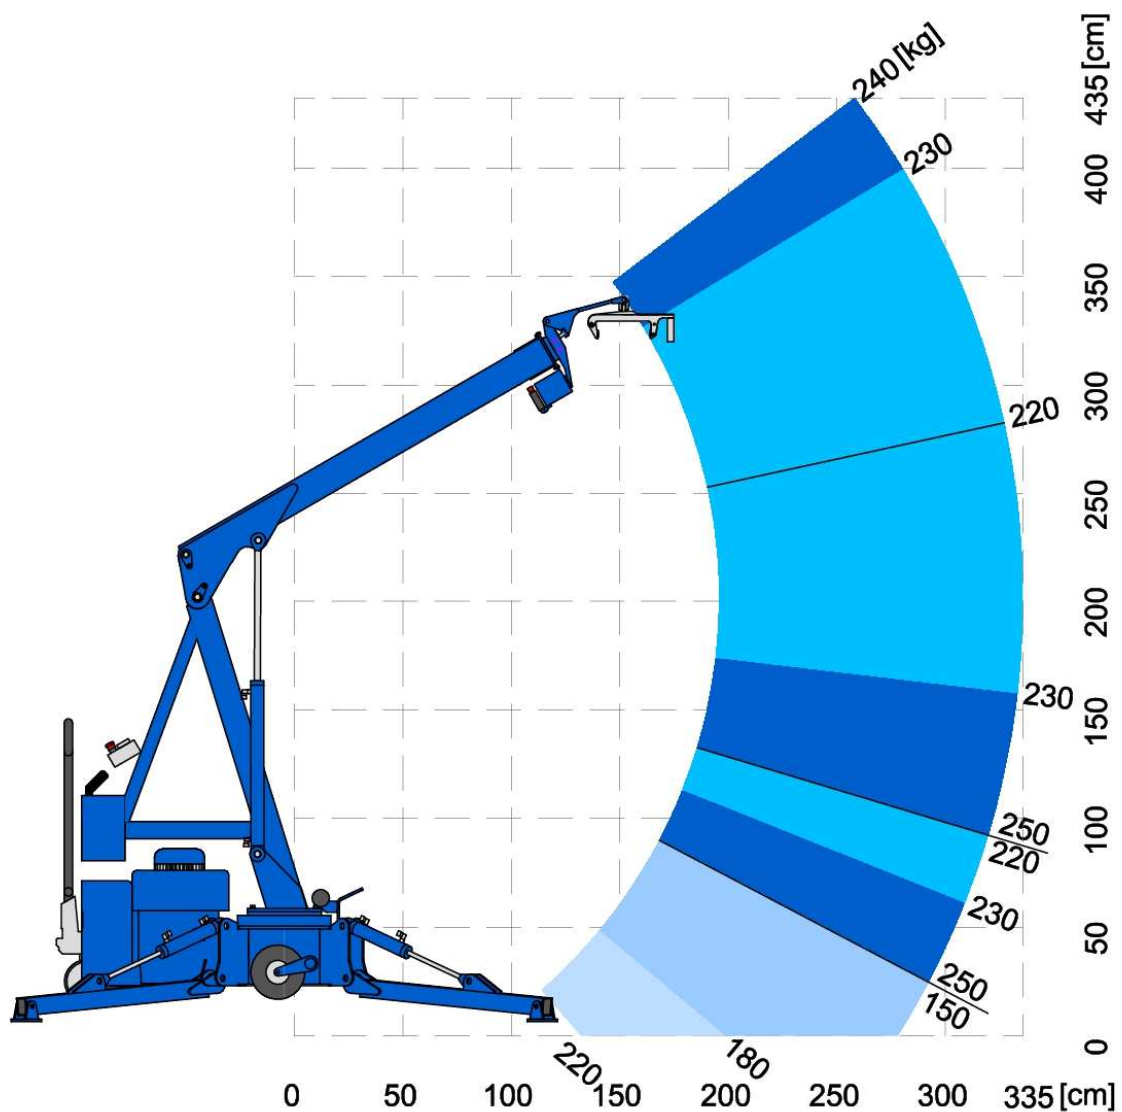

It allows to unweighting employees while doubling the work efficiency

Equipped with grippers that enable the assembly of elements with a ceiling of up to 15 cm

	MC03
The maximum reach	3,35m
Rotation angle	345°
Transport dimensions (X length X width X Height)	185cm/ 80cm/196cm
Spacing of supporting feet	240cmx250cm
Capacity	250kg
The height of raising	4,25m
Device weight	950kg
Lifting speed	0 – 0,25m/s
Lowering speed	0 – 0,20m/s
Power of the hydraulic aggregate	2,2 kW

	MC03
Power consumption	2,4 kW
Working voltage	230V - 16A
Rotation radius when turning	1,5m
Maximum wheel pressure	5 kN
Maximum support pressure	10 kN
Drive motor power	450 W
Driving speed	3 - 4,5 km/h
Ceiling grapple lifting capacity CHP18	120kg
Ceiling grapple lifting capacity CHP24	150kg
